The Congressional Accountability Act of 1995 (CAA) established an independent Office of Compliance to apply the rights and protections of the following labor and employment statutes to covered employees within the Legislative Branch: the Fair Labor Standards Act of 1938, Title VII of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination in Employment Act of 1967, the Family and Medical Leave Act of 1993, the Occupational Safety and Health Act of 1970, chapter 71 of title 5 of the U.S. Code (relating to Federal service labor-management relations), the Employee Polygraph Protection Act of 1988, the Worker Adjustment and Retraining Notification Act, the Rehab-

ilitation Act of 1973, and chapter 43 of title 38 of the U.S. Code (relating to veterans' employment and reemployment). This Act was amended in 1998 to apply the Veterans Employment Opportunities Act. In 2008, the CAA was amended to apply the Genetic Information and Nondiscrimination Act of 2008.

The Office provides employees and employing offices with an independent, neutral dispute resolution process, as an alternative to the court system, through which they may adjudicate claims under the laws applied by the CAA. The Office is headed by a five-member Board of Directors, who are appointed jointly by the House and Senate majority and minority leadership.

Section 415 of the Congressional Accountability Act (CAA) established "an account of the Office in the Treasury of the United States for the payment of awards and settlements under this Act," and further authorized to be appropriated "such sums as may be necessary to pay such awards and settlements." Section 415 stipulated that awards and settlements under the CAA should only be paid from that account, which was to be kept separate from the operating expenses account of the Office of Compliance.

The Legislative Branch Appropriations Acts have appropriated funds for awards and settlements under the CAA by means of the following language:

Such sums as may be necessary are appropriated to the account described in subsection (a) of section 415 of Public Law 104–1 to pay awards and settlements as authorized under such subsection.

The Judiciary Office Building Development Act, Public Law 100-480, among other purposes, authorized the Architect of the Capitol to contract for the design and construction of a building adjacent to Union Station in the District of Columbia to be leased to the Judicial Branch of the United States. This schedule reflects the costs associated with the construction of the building. Costs of construction were financed by an initial \$125 million of Federal agency debt (sales price less unamortized discount) issued in 1989.

Estimates prepared by the Legislative Branch assumed the financial arrangements to be a lease-purchase, which would distribute outlays associated with acquisition of the building over a period of thirty years. However,

the arrangements involve Federally guaranteed financing and other characteristics that make them substantively the same as direct Federal construction, financed by direct Federal borrowing.

Estimates shown are consistent with the requirements of the Budget Enforcement Act and are presented with the agreement of the Budget and Appropriations Committees.

Office of the Librarian.—The Office of the Librarian has overall management responsibility for the Library and carries out certain executive and financial functions of the Library. The Office of the Librarian includes the Office of the Chief Financial Officer, the Office of the General Counsel, the Congressional Relations Office, the Office of Contracts and Grants Management, the Office of Communications, the Development Office, and the Office of Special Events and Public Programs.

Library Services.—The mission of Library Services is the acquisition of library materials; cataloging, classification, and preparation of those materials for use; serving the public and maintaining and managing the Library's universal collections, which are the largest and most diverse in the world; and, the preservation of materials for use now and in the future. It also develops, produces, markets, and distributes the Library's cataloging records and cataloging-related publications, tools, and related resources to other

libraries around the world that rely on the Library's standards and technical publications to manage their collections for effective access. Library Services also serves the public and contributes directly to the nation's educational and intellectual life through programs and activities that interpret and promote the Library's resources and the use of its unparalleled collections onsite as well as via the Internet.

Office of Strategic Initiatives.—The Office of Strategic Initiatives (OSI) supports the Library by developing consolidated plans for the Library's digital future, integrating the delivery of digital content and information technology services and infrastructure. Through the balanced use of technology, OSI facilitates achieving the Library's goals by sustaining a forward-looking information technology infrastructure that supports the Library's key business lines and enables constituent interaction. OSI maintains stewardship over the Library's information technology investments and the infrastructure that sustains digital content assets and services. OSI also oversees the Library's national programs for digital content preservation and education outreach. The national preservation program catalyzes public-private partnership networks to jointly sustain at-risk cultural heritage content. The national education outreach network encourages kindergarten through twelfth grade educational use of the Library's online primary sources.

Law Library.—The Law Library of Congress (LAW) is the world's largest law and legislative library. Its primary mission is to provide the United States Congress, Executive Branch agencies, federal courts, the legal community, and others with legal research and/or reference services in foreign, international, and comparative law. LAW's core research capacity includes foreign and U.S. trained attorneys and librarians. They use LAW's collection of comprehensive legal materials, a total of more than 5 million items including nearly 3 million books and periodicals. These cover approximately 240 legal systems and jurisdictions. LAW acquires, maintains, and preserves its collection in both analog and digital formats, and draws on technology to make the collection accessible through various systems and products. The Law Library ensures public access to congressional resources for Congress.gov, which includes full texts of bills, resolutions, the Congressional Record, legislative calendars, committee information, treaties plus a full range of other congressional material. Additional LAW-supported systems and products provide access to historic legislative documents which focus on legal research techniques, events and issues. The Law Library assists Congress and other constituents with a forum for the exchange of legal sources online.

Office of Support Operations.—The Office of Support Operations provides oversight and direction to diverse and interdependent infrastructure programs that enable the agency to achieve strategic objectives supporting the mission. The Office of Support Operations delivers an array of coordinated services, manages institutional programs, and oversees regulatory compliance in the areas of human capital, administration, facilities, asset management and protection, personnel security, emergency preparedness, safety, and health services.

Office of the Inspector General.—The Office of the Inspector General (OIG) functions within the Library of Congress as an independent, objective office with authority to: conduct and supervise audits and investigations relating to the Library; provide leadership and coordination in recommending policies to promote economy, efficiency, and effectiveness; and inform the Librarian of Congress and the Congress fully about problems and deficiencies related to the administration and operations of the Library. The OIG specializes in auditing and analyzing the design of and compliance with the Library's systems of internal control, with special emphasis on deterring waste, fraud, and abuse. Through its audit operation it recommends corrective actions to improve financial, operational, technological, and managerial activities. In its investigative capacity, it performs administrative, civil, and criminal investigations concerning fraud, conflict of interest, and other misconduct involving Library employees, contractors, and grantees. As part of its oversight role, OIG continually reviews and provides recommendations about the effects of existing and proposed legislation

and Library policies. The OIG also coordinates relationships within the Library and with outside organizations regarding OIG matters. The designed objective of the office's efforts are to assist the Library in accomplishing its mission in the most effective and efficient manner.

The Copyright Office operates the largest database of copyrighted works and copyright ownership information in the world, and through its work contributes significantly to the development of the copyright law, the national economy, and the cultural heritage of the United States. Approximately two-thirds of the office's operations are funded by fees paid by authors and other copyright owners for services rendered, and the remainder is funded by appropriated dollars. The amount requested is more than offset by projected fee receipts plus the value of books and other materials deposited with the Office in accordance with the Copyright Act (17 U.S.C. subsections 407 and 408) and transferred annually to the Library of Congress for its permanent collections. The receipts and obligations for 2014, and estimates for 2015 and 2016 are as follows:

Registration, recordation, acquisitions, copyright records, public information, and expert advice on copyright issues.—The Copyright Office is responsible for administering the national copyright registration system. In 2014, the Office examined and registered 476,298 claims to copyright in original works of authorship, and it expects to register an estimated 500,000 copyright claims in both 2015 and 2016. Additional responsibilities of the Office include: recording assignments and other copyright-related documents; acquiring books, films, sound recordings, and other works for possible inclusion in Library of Congress collections under the mandatory deposit provision of the copyright law; creating and making available records of copyright ownership; providing copyright information to the public; and providing expert advice to Congress and executive agencies on copyright policy, piracy, and copyright trade agreements.

Licensing Division.—The Licensing Division handles administrative provisions of statutory licenses and obligations under the copyright law, including those involving secondary transmissions by cable television systems and satellite carriers and the importation, manufacture and distribution of digital audio recording devices and distribution media. The division collects specified royalty fees for distribution to copyright owners upon determinations rendered by the Copyright Royalty Judges. The Division also collects receipts from digital audio devices and distributes to the copyright owners through this appropriation after deduction of administrative costs incurred by the Licensing Division and the Copyright Royalty Judges program. Distributions are made in accordance with the schedule established by 17 U.S.C. subsection 1005.

Copyright Royalty Judges (CRJ).—The Copyright Royalty Judges and their staff, who operate under the Librarian of Congress, determine royalty distributions and adjust royalty rates.

The Public Information Programs of the Superintendent of Documents operate under a separate appropriation that provides funds (salaries and expenses) for: (1) the distribution of certain tangible publications to Members of Congress and other Government agencies, as authorized by law; (2) the distribution of Government publications to designated Federal depository libraries, as authorized by law, including tangible Government information products and online access to more than 1 million titles via GPO's Federal Digital System (FDsys); (3) the compilation of catalogs and indexes of Government publications, as authorized by law; and (4) the distribution of Federal Government publications to foreign governments via the International Exchange Service. These four functions are related to the publication activity of Federal agencies and the demands of the

public, Members of Congress, and depository libraries. Following is a description of these four functions:

Distribution for other Government agencies and Members of Congress (By-Law Distribution).—The Public Information Programs of the Superintendent of Documents maintain mailing lists and distribute, at the request of Government agencies and Members of Congress, certain publications specified by public law.

Federal Depository Library Program.—Established by Congress to ensure the American public has access to its Government's information, the Federal Depository Library Program (FDLP) involves the acquisition, format conversion, and distribution of depository materials to Federal depository libraries across the country.

The mission of the FDLP is to coordinate with depository libraries, almost 1,200 nationwide, to disseminate information products from all three branches of the Government. Libraries that have been designated as Federal depositories maintain these information products (as provided by GPO) as part of their existing collections and are responsible for assuring that the public has free access to the material provided by the FDLP.

Included in this program is the maintenance and expansion of free, electronic access to information products produced by the Federal Government via FDsys. Electronic information dissemination and access have greatly expanded the number of publications offered to the Federal depository libraries as well as increasing public use of the FDLP content. As the FDLP continues its transition to a primarily electronic program, the costs of the program are increasingly related to identifying, acquiring, cataloging, linking to, authenticating, modernizing, and providing permanent public access to digital Government information.

Cataloging and indexing.—The Public Information Programs of the Superintendent of Documents are charged with preparing catalogs and indexes of all publications issued by the Federal Government that are not confidential in character. The principal publication is the Web-based "Catalog of U.S. Government Publications" (CGP). GPO's goal is to expand the CGP to a more comprehensive title listing of public documents, both historic and electronic, to increase the visibility and use of Government information products.

International exchange.—Under the direction of the Library of Congress (LC), the Public Information Programs Superintendent of Documents distributes tangible Government publications to foreign governments that agree to send the United States similar publications of their governments for LC collections.

By law, GPO's Business Operations Revolving Fund is used to finance GPO's publishing operations. Approximately 70 percent of GPO's publishing revenue is from procuring publications and related services for customer agencies. This work is procured through GPO's Customer Services business unit utilizing the private sector printing and information product industry. The majority of the Government's publishing requirements are effectively satisfied through this procurement activity because the highly competitive process provides access to the vast resources, expertise, and specialization within the commercial sector at the most cost effective price.

GPO's in-plant facility provides digital and tangible products in support of the information and day-to-day business needs of Congress and Federal agencies. GPO produces the *Congressional Record* overnight when Congress is in session, and bills, hearings, documents, reports and committee prints in time to support Congress' legislative needs. Also produced are the *Federal Register*, the *Code of Federal Regulations*, and other key Government documents, such as the annual *U.S. Budget*.

With a few exceptions, the paper used to produce tangible documents by GPO and its contractors meets or exceeds Federal recycled paper requirements and all GPO inks are manufactured from vegetable oil in accordance with the Vegetable Ink Printing Act of 1994.

GPO plays a critical role in America's security by producing secure Federal credentials, including the U.S. Passport for the Department of State, that combine digital and print security measures.

GPO's publications sales program provides the public with an opportunity to purchase a wide variety of low cost, consumer-oriented publications, Congressional documents, and Executive and Judicial publications. Documents can be ordered through GPO's secure Online Bookstore site at <http://bookstore.gpo.gov> or from GPO's bookstore in Washington, D.C. Free and low cost publications are distributed through the Federal Citizen Information Center (FCIC) in Pueblo, CO. GPO also provides warehousing and publication distribution services for Federal agencies on a reimbursable basis. Thousands of titles are for sale at any given time, including books, CD-ROMs, eBooks and other digital formats.

The United States Tax Court (referred to herein as the Tax Court or Court) was established in 1969 under Article I of the United States Constitution. The Court's jurisdiction is established by U.S. Code Title 26 (the Internal Revenue Code). The Court is a court of law, which the Supreme Court has said closely resembles the Federal District Courts and solely exercises judicial powers. It is also a court of national jurisdiction and conducts trial sessions in 74 cities throughout the United States.

The Tax Court is independent of the Executive and Legislative Branches. It is not affiliated with the Internal Revenue Service (IRS). It is one of three courts in which taxpayers can bring suit to contest IRS liability determina-

tions, and the only one in which taxpayers can do so without prepaying any portion of the disputed taxes.

By law, the Tax Court is authorized 19 judges who, among themselves, elect one as Chief Judge. Judges are appointed to 15-year terms by the President, by and with the advice and consent of the Senate. Retired (also known as Senior) judges may be recalled by the Chief Judge to perform judicial duties. The Chief Judge is also authorized to appoint special trial judges who have statutory authority to decide several categories of cases, including cases involving up to \$50,000 in dispute per tax year. Decisions by the Tax Court are reviewable by the United States Courts of Appeals and, if *certiorari* is granted, by the Supreme Court.

The Medicaid and CHIP Payment and Access Commission (MACPAC) is a non-partisan legislative branch agency that provides policy and data analysis and makes recommendations to Congress, the Secretary of the U.S. Department of Health and Human Services, and the states on a wide array of issues affecting Medicaid and the State Children's Health Insurance Program (CHIP). The U.S. Comptroller General appoints MACPAC's 17 commissioners, who come from diverse regions across the United States and bring broad expertise and a wide range of perspectives on Medicaid and CHIP.

MACPAC serves as an independent source of information on Medicaid and CHIP, publishing issue briefs and data reports throughout the year to support policy analysis and program accountability. The Commission's authorizing statute, 42 U.S.C. 1396, outlines a number of areas for analysis, including: payment; eligibility; enrollment and retention; coverage; access to care; quality of care; and the programs' interaction with Medicare and the health care system generally.

MACPAC's authorizing statute also requires the Commission to submit reports to Congress by March 15 and June 15 of each year. In carrying out its work, the Commission holds public meetings and regularly consults with state officials, congressional and executive branch staff, beneficiaries, health care providers, researchers, and policy experts.

US-China Economic and Security Review Commission.—Congress created the U.S.-China Economic and Security Review Commission (USCC) in 2000 in the National Defense Authorization Act (Public Law 106-398 as amended by Division P of the Consolidated Appropriations Resolution, 2003 (Public Law 108-7), as amended by Public Law 109-108 (November 10, 2005). The statute gives the Commission the mandate to monitor, investigate, and assess the "national security implications of the bilateral trade and economic relationship between the United States and the People's Republic of China." Its members are appointed by Congressional leaders, and its statutory mandate is to report to Congress on Chinese proliferation practices; the qualitative and quantitative effects of transfers of U.S. economic production activities to China; the effects of the need for energy on China's foreign and military policies and the impact of China's growing economy on world energy resources; foreign investment by the U.S. in China, and China's foreign investment in the U.S.; the military plans, strategy, doctrine and structure of China's military; strategic economic and security implications of China's cyber capabilities and operations; China's national budget, fiscal policy, monetary policy, and currency management practices; the drivers, nature, and implications of China's growing economic, technological, political, cultural, people-to-people, and security relations of China with other countries and international organizations; China's compliance with its commitments to the World Trade Organization and other bilateral and multilateral agreements; the implications of China's restrictions on freedom of expression; and the safety of food, drug, and other products imported from China. The Commission reports annually on these issues to the Congress, making recommendations for policy action and legislation when appropriate. In order to obtain new information and perspectives on these issues, the USCC conducts hearings throughout the year and maintains a website containing the records of these proceedings as well as original commissioned research on economic and security matters related to the Commission's statutory mandate.

This presentation includes the following:

Commission on Security and Cooperation in Europe.—The Commission on Security and Cooperation in Europe is authorized and directed to monitor the acts of the signatories which reflect compliance with or violation of the articles of the Final Act of the Conference on Security and Cooperation in Europe, with particular regard to the provisions relating to Cooperation in Humanitarian Fields. The law establishing the Commission on Security and Cooperation in Europe also mandated it to monitor and encourage U.S. Government and private activities designed to expand East-West trade and the exchange of people and ideas. The Commission will receive an annual report from the Secretary of State discussing the overall United States policy objectives that are advanced through meetings of decision-making bodies of the Organization for Security and Cooperation in Europe (OSCE), the OSCE implementation review process, and other activities of the OSCE.

Congressional-Executive Commission on the People's Republic of China.—Congress created the Congressional-Executive Commission on the People's Republic of China (CECC) in 2000 by passing Title III of P.L. 106–286, the China Relations Act of 2000. The statute gives the Commission the mandate to monitor the Chinese government's compliance with international human rights standards and to track the development of the rule of law in China. The Commission reports annually on these issues to the President and the Congressional leadership, making recommendations for policy action and legislation when appropriate. The CECC was also charged with creating and maintaining a registry of victims of human rights abuses in China, including prisoners of conscience. The CECC conducts hearings and staff-led issues roundtables throughout the year and maintains a website containing the records of these proceedings, as well as other information about human rights and rule of law issues in China. The CECC seeks to be a resource on these issues for Capitol Hill, the NGO community, the academic world, and the general public.

The Commission comprises nine Senators, nine Members of the House of Representatives, and five Executive Branch officials, supported by a professional staff numbering about 15 people. The chairmanship of the CECC rotates from the Senate to the House in even-numbered Congresses.

Dwight D Eisenhower Memorial Commission.—The Dwight D. Eisenhower Memorial Commission was created by Congress in 1999 by Public Law 106–79. The Commission's congressional mandate is to establish an appropriate, permanent national memorial to Dwight D. Eisenhower, who served as Supreme Commander of the Allied forces in Europe in World War II and subsequently as 34th President of the United States. The Commission's enabling legislation dictates that a memorial should be created to perpetuate his memory and his contributions to the United States. The Commission is bipartisan and consists of 12 members. Four Commissioners are members of the House of Representatives, four are Senators, and four are private citizens appointed by the President. The Commission is led by a World War II combat-decorated veteran: Rocco

C. Siciliano and its work on building the memorial since 2001 has been informed by the active participation of the Eisenhower family, along with input from members of Congress and federal review agencies. In order to build this world-class memorial in the most efficient way possible, the Commission requests these funds in FY 2016.

The Open World Leadership Center, under the direction of its Board of Trustees, supports the identification of emerging leaders from foreign countries selected by the Board of Trustees and oversees the development of an intensive program in the United States to link up to 3,000 participants each year with U.S. counterparts. The Center's mission entails enhancing the understanding and capabilities for cooperation between the United States and participating countries by developing a network of leaders who have gained significant, first-hand exposure to America's democratic, accountable government and its free-market system. The Center has also administered a program to enable cultural leaders from the Russian Federation to gain exposure to the operations of American cultural institutions.

The Center is authorized to solicit and accept federal and private funds, in addition to receipt of this appropriation, and to invest appropriated funds in par value securities at the U.S. Treasury. The Center is governed by an eleven-member board of trustees, composed of the Librarian of Congress, members of the U.S. Senate and House of Representatives and representat-

ives of the private sector. The Center is authorized to obtain a wide range of administrative support, including space, from the Library of Congress.

FY 2016 funding supports U.S. grants and logistical services for hosting in communities throughout the United States as well as other operating expenses of the Center.
